GSA – IT Schedule 70, Government Wide Acquisition Contract (GWAC)

The GSA Schedule provides immediate access to our full range of communications and IT services through our small business partners. Under Schedule 70, all authorized federal, state and local governments can easily secure needed IT services.

GSA Schedule 58-I

Professional Audio/Video Telemetry/Tracking, Recording/Reproducing, Signal Data Solutions and Installation Services

GSA Schedule 874

Mission Oriented Business Integrated Services (MOBIS)

GSA – Veterans Technology Services (VETS), Government Wide Acquisition Contract (GWAC)

The VETS GWAC is a small business set-aside contract for service-disabled veteran-owned (SDVO) small technology firms. As a teaming partner on this contract, we add strength to the total information solutions, and help federal agencies reach their small business goals.

This GWAC is a 10-year (five-year base period with one, five-year option), multiple award, Indefinite Delivery / Indefinite Quantity (IDIQ) contract covering information technology services in two Functional Areas (FAs). FA 1 consists of Systems Operations & Maintenance (integration support, data storage management, and network support) support options. FA 2 scope addresses Information Systems Engineering (IT strategic planning & studies) with support options available. Please contact us for contract details.

GSA Alliant

SEWP (Custom User Purchasing Agreement) CUPA

Provide Cisco Equipment to the Centers for Disease Control (CDC)

Navy - SeaPort Enhanced (SeaPort-e), Multiple Award Contract (MAC)

The SeaPort-e MAC has both large and small business contract holders. Access to our Navy and Marine Corps customers is provided through our small business partners.

The base contract period of performance runs through April 4, 2014 with a five year Award Term option extending performance through April 5, 2019. This contract vehicle uses a web-based procurement portal to acquire performance-based services for telecommunications – system engineering and technical support for infrastructure (video/voice/data) establishment, test, upgrade and operational support of systems, networks, workstations and support equipment hardware and software that are outside the scope of cognizance of NMCI.

Department of Justice – Federal Bureau of Investigation Information Technology Supplies and Support Services (FBI IT Triple S), Multiple Award Contract (MAC)

The FBI IT Triple S suite of IT supplies and services is available a la cart or as an end-to-end solution. Open to all Department of Justice agencies, access to our offering is under our small business partner. Task Requirements are posted through a web-based procurement portal, and awards are made to the lowest price, technically compliant offer. With an eight (8) year base contract period, another eight option years available, and a \$30 billion ceiling, all IT infrastructure requirements, both products and services (voice, video, data networks) can be met on one contract with consistent Task Order delivery each fiscal year.

DHS EAGLE

The EAGLE Program establishes a suite of indefinite-delivery indefinite-quantity contracts for IT support services that enables DHS business and program units to accomplish their mission objectives. These multiple award contracts collectively referred to as EAGLE (Enterprise Acquisition Gateway for Leading Edge Solutions) are designed to offer a broad range of services, solutions and contract types to fulfill the majority of component and departmental IT services needs.

Air Force CAAS III
